Pharmatech Appoints Reaney as Executive Vice President, Consulting and International Operations

Will Oversee Operations of Pharmatech's International Consulting Group in India

FOSTER CITY, Calif. – June 11, 2007 - Pharmatech Associates, Inc., a leader in pharmaceutical and biotech manufacturing process methodology, today announced the appointment of Mr. Warford S. Reaney as Executive Vice President, Consulting and International Operations.

Mr. Reaney has more than 20 years of experience in managing the design, construction and operational qualification of biotech, biomedical, and research & development labs. His background includes overseeing the development and deployment of quality systems for biopharma organizations, and he is a specialist in cGMP integration. He also has vast experience in aerospace, microelectronic and telecommunications projects.

In his new role, Mr. Reaney is chartered with leveraging his experience and expertise to spearhead the development efforts of Pharmatech's new International Consulting Group in Hyderabad, India. This effort will involve close collaboration with Pharmatech's strategic alliance partner, Aveta Lifesciences Private Limited, an India-based firm providing process, technical GMP and regulatory guidance to the Indian biopharma marketplace.

“Warford Reaney’s wealth of industry knowledge and expertise is an invaluable asset to Pharmatech, and the company’s future direction,” said Pharmatech Chairman & CEO Calvin Wong. “Under Mr. Reaney’s guidance, we will develop a robust, international consulting group in Hyderabad, India through our strategic alliance with Aveta, enabling Pharmatech to provide expert quality, validation and FDA compliance consulting in a region now established as a key hub of the global pharmaceutical and biotechnology economy.”

Prior to becoming executive vice president, Mr. Reaney was Pharmatech Associates’ senior Vice President of Consulting and Managing Director of International Operations.

About Pharmatech Associates:

Based in the San Francisco Bay Area, Pharmatech is a full-service consultancy dedicated to serving the regulated life-sciences market, providing tailored project management, validation services and quality process optimization solutions that ensure optimal outcomes at all points along the drug development life cycle. Pharmatech Associates consulting services focus on cGMP readiness and Quality System development and have long experience negotiating the complexities of the product development life cycle in pharmaceutical, biotech and biomedical device projects. Pharmatech is the leader in applying Lean Manufacturing and Six Sigma processes to biopharm manufacturing and production processes. For more information, please visit www.pharmatechassociates.com
